

List of Case Exhibits

Exhibits No.	Submission No.	Name of Main Author		Institution of Main Author	Country	Category	Title of Abstract	Date of Discussion
CE-001	20026	LEE	Kee-Joon	Department of Orthodontics, Yonsei University College of Dentistry	Korea	22. Congenital anomaly	Strategic treatment of familial cleidocranial dysplasia	Sep. 28 (Fri.) 12:00-13:00
CE-002	20028	VALVERDE GUEVARA	Yessenia M.	Division of Orthodontics, Niigata University. Graduate school of Medical and Dental Sciences	Japan	23. Maxillary protrusion	Temporary anchorage device treatment in a high angle skeletal Class II with severe crowding	Sep. 28 (Fri.) 12:00-13:00
CE-003	20020	LEE	Pao-chieh	Department of Orthodontics, China Medical University and Medical Center, Taiwan	Taiwan	26. Open bite	ISW for the treatment of skeletal Class II dental open bite with right posterior crossbite	Sep. 28 (Fri.) 12:00-13:00
CE-004	20018	CHEN	Chien-kang	Department of Orthodontics, China Medical University and Medical Center, Taiwan	Taiwan	28. Crowding	ISW for the treatment of adult anterior crossbite with severe crowding case	Sep. 28 (Fri.) 12:00-13:00
CE-005	20016	LIN	Zhi-jie	Department of Orthodontics, China Medical University and Medical Center, Taiwan	Taiwan	29. Asymmetry	ISW for the treatment of adult anterior crossbite with facial asymmetry case	Sep. 28 (Fri.) 12:00-13:00
CE-006	20019	CHANG	Yuan-chieh	Department of Orthodontics, China Medical University and Medical Center, Taiwan	Taiwan	29. Asymmetry	ISW for the treatment of adult facial asymmetry crowding case	Sep. 28 (Fri.) 12:00-13:00
CE-007	20022	TSAI	Ya-yu	Department of Orthodontics, China Medical University and Medical Center, Taiwan	Taiwan	29. Asymmetry	ISW for the treatment of skeletal Class III facial asymmetry with unilateral crossbite case	Sep. 28 (Fri.) 12:00-13:00
CE-008	20025	HAKAMI	Zaki	Division of Orthodontics and Dentofacial Orthopedics, Tohoku University Graduate School of Dentistry	Japan	29. Asymmetry	The use of miniscrews in maxillary protruded case associated with mandibular shift and scissors bite	Sep. 28 (Fri.) 12:00-13:00
CE-009	20027	SIRISOONTORN	Irin	Department of Orthodontics and Dentofacial Orthopedics, Nagasaki University Graduate School of Biomedical Sciences	Japan	29. Asymmetry	The treatment of unilateral open-bite case with miniscrew anchorages	Sep. 28 (Fri.) 12:00-13:00
CE-010	20015	YU	Jian-hong	Department of Orthodontics, China Medical University and Medical Center, Taiwan	Taiwan	31. Others	Consideration of flattening Curve of Spee	Sep. 28 (Fri.) 12:00-13:00
CE-011	20017	KAO	Shih-ming	Department of Orthodontics, China Medical University and Medical Center, Taiwan	Taiwan	31. Others	ISW for the re-treatment of the case with excessive overjet	Sep. 28 (Fri.) 12:00-13:00
CE-012	20021	CHANG	Chih-ling	Department of Orthodontics, China Medical University and Medical Center, Taiwan	Taiwan	31. Others	ISW for the treatment of skeletal Class III anterior open bite and facial asymmetry case	Sep. 28 (Fri.) 12:00-13:00
