

# CRYOBIOLOGY AND CRYOTECHNOLOGY

(Formerly Japanese Journal of Freezing and Drying)

Contents of Vol. 42 (No.1), 1996

## Seminar "Adaptation of Plants to Low-Temperatures- Science and Practice"

1. Seasonal Changes in Freezing Tolerance in Wintering Crops  
..... Jiro ABE..... 1 (1)
  2. Freezing Tolerance and Cold-Regulated Proteins (CORs) in Plants  
..... Toru KAZUOKA and Kenji OEDA..... 6 (6)
  3. Hardening-induced *Chlorella* Genes and Proteins  
..... Shoji HATANO and Ken-ichi HONJOH.....11(11)
  4. Regulation of Gene Expression under Drought and Cold Stress  
.....Kazuko YAMAGUCHI—SHINOZAKI and Kazuo SHINOZAKI.....20(20)
  5. Adaptation Mechanisms of Plants to Freezing Temperatures  
..... Seizo FUJIKAWA.....26(26)
  6. Physiological Responses of Horticultural Products to Low-Temperature in Relation  
to The Shelf Life ..... Kazuo CHACHIN.....31(31)
  7. Cool Tolerance at Booting and Flowering Stages of Rice Plants  
..... Kunio KARIYA.....37(37)
  8. Mechanism of Adaptation to Chilling Temperatures in Plants  
..... Shizuo YOSHIDA.....45(45)
  9. Effects of Pretreatments on Freezing-Survivability of Shoot Apices of Several  
Horticultural Plants ..... Takashi SUZUKI.....49(49)
  10. Cryopreservation of Cultured Plant Materials by Encapsulation-Dehydration  
.....Atsuko URAGAMI.....60(60)
  11. Cryopreservation of Cultured Plant Cells and Meristems by Vitrification  
..... Akira SAKAI.....61(61)
- General Discussions**

## 41st Annual Meeting

### Special lecture

3. Cryopreservation of Human Blood Cells : Its Current Status and Future  
..... Tsuneo TAKAHASHI.....72(72)
