

**Dräger**

**Babylog 8000  
Now with  
High Frequency  
Ventilation!**

**High Frequency**

The revolutionary concept of the Babylog 8000 with HFV - a fully integrated ventilator - creates new perspectives for the ventilation of critically ill babies.

HFV, IPPV, SIMV...  
are always at hand!  
Every HFV breath is  
monitored in real time.
