

Philippe Gailloud obtained his medical degree from the University of Geneva, Switzerland, in 1991. After a surgical internship, he underwent a research fellowship in anatomy and a radiology residency at the Geneva University Hospital. He moved to Baltimore in 1998 for a fellowship in interventional neuroradiology at the Johns Hopkins Hospital. He is presently a faculty member of the Division of Interventional Neuroradiology of the Johns Hopkins University. His current fields of interest are principally centered on the anatomy, the imaging, and the pathology of the spinal cord blood supply.
