

Enclosed Image and herewith short CV for Timo Krings

Dr. Krings studied medicine in Aachen, Germany and at Harvard Medical School in Boston. After residency training in Neuroradiology in Aachen with Prof. Armin Thron, he completed a neurointerventional fellowship with Professor Pierre Lasjaunias in Paris, France and subsequently joined the Neuroradiology division of the University of Toronto as a diagnostic and interventional Neuroradiologist in 2008. He is currently cross appointed to Radiology and Neurosurgery at UHN and as an interventional Neuroradiologist at the Hospital for Sick Children. He is a Full Professor of Radiology and Surgery, the Chief of Radiology at the Toronto Western Hospital and the Head of the Division of Diagnostic and Interventional Neuroradiology at the University Health Network, Mount Sinai and Women's College Hospitals. He holds the David Braley and Nancy Gordon Chair in Interventional Neuroradiology at the University of Toronto.

His current research focusses on the prediction of brain bleeding from brain vascular malformations using a multidisciplinary approach, development of novel methods to treat these life changing events and estimating the relative effectiveness of treatments to determine the impact on Health Care. To this end he is leading a team of Neuro-imagers, Neurointerventionalists, Computational Scientists, Genetic Biologists and Epidemiologists within the Division of Neuroradiology. Dr. Krings has published more than 360 peer reviewed articles, and approximately 30 book chapters and four books on spinal, pediatric and interventional neuroradiology, as well as neurovascular anatomy.

Dr. Krings's leadership in the field of Neuroradiology is bolstered by his distinguished grants and awards, including the Scientific Award of the European Society of Neuroradiology, the Lucien Appel Prize, and the Founders Award in Interventional Neuroradiology of the ESNR. For the development of the Neuroradiology Program in Toronto he won the Anderson Award of the Wightman-Berris Academy and was granted the Edward Lansdown Award for outstanding teaching in the Residency Program of the University of Toronto.
