

Asian Society of Surgical Metabolism and Nutrition (ASSMN2026)

The 63rd Congress of the Japanese Society of Surgical Metabolism and Nutrition (JSSMN2026)

Venue: Osaka International Convention Center

July 30th (Thu) - 31st (Fri), 2026

Session	Title	Abstract No	Time/Date	Room
Poster	Early Enteral Nutrition via Jejunostomy Combined with Parenteral Nutrition in a Malnourished Postoperative Carcinoma Patient : A Case Report	P-5	-	12F Conference Hall Foyer
	Target calorie intake achievements for patients treated in the surgical intensive care unit	P-6		
International Oral Session 1	Preprocedural prognostic nutritional index predicts early gastrointestinal symptoms after percutaneous endoscopic gastrostomy or percutaneous radiologic gastrostomy in Korea: a retrospective cohort study	IS1-1	Thursday, July 30th 17:20-18:13	Room 4 (8F 801~802)
	From Individualized to Commercial PN in Children on Home PN: Case Series Analysis	IS1-2		
	Preoperative High Total Body Water measured by Bioelectrical Impedance Analysis is an Independent Risk Factor for Postoperative Acute Kidney Injury in Colorectal Cancer surgery	IS1-3		
	Visceral Adiposity and Quantitative Nutrient Intake in Colorectal Cancer: A Cross Sectional Analysis of Bioimpedance Derived Visceral Fat Area	IS1-4		
	The Effect of Sleeve Gastrectomy versus Roux-en-Y Gastric Bypass on Pancreatic Cancer Risk Reduction: A Systematic Review and Bayesian Network Meta-Analysis	IS1-5		
	The Advanced Lung Cancer Inflammation Index as a Prognostic Indicator in Patients with Unresectable Hepatocellular Carcinoma Receiving Atezolizumab and Bevacizumab Therapy	IS1-6		
	Sarcopenia Assessed by Bioelectrical Impedance Analysis in Cancer Patients: Implications for Clinical Practice and Radiotherapy Management	IS1-7		
International Oral Session 2	Extremely Elevated Serum IL-6 Guided Early Amputation to Rescue a Patient with Streptococcal Necrotizing Fasciitis and Disseminated Intravascular Coagulation: A Case Report	IS2-1	Friday, July 31st 9:55-10:58	Room 4 (8F 801~802)
	The effects of sarcopenia measured by bioelectrical impedance analysis on immediate postoperative outcomes after pancreatoduodenectomy	IS2-2		
	Procedure Selection in Bariatric Surgery and Its Differential Impact on Cognitive, Brain Structure, and Neurometabolites Outcomes: A Systematic Review and Bayesian Network Meta-Analysis	IS2-3		
	Laparoscopic Versus Open Sectionectomy and Bisectionectomy for Hepatocellular Carcinoma: A Propensity Score-Matched Analysis of Short- and Long-term Outcomes	IS2-4		
	The Impact of Bariatric Surgery on Long-term Risk of Breast Cancer: A Systematic Review, Meta-Analysis, and Meta-Regression	IS2-5		
	Natural Compounds from Sengkubak Leaves Targeting CDK2-Mediated Cell Cycle in Colorectal Cancer: A Molecular Docking Study	IS2-6		
	Early Metabolic Adaptation During Controlled Refeeding In Severe Malnutrition After Colorectal Surgery	IS2-7		
[ASSMN-JSSMN] International Oral Session	Serial Bioelectrical Impedance Analysis after Hepatic Resection: Early Phase Angle Decline and Extracellular Fluid Redistribution	AO-1	Thursday, July 30th 11:30-12:20	Room 4 (8F 801~802)
	Effect of Conversion Surgery after Immune Checkpoint Inhibitor Use for Advanced Hepatocellular Carcinoma - Analyses from the Perspective of Nutritional Status	AO-2		
	Pre-transplant sarcopenia improves after liver transplantation in children with biliary atresia	AO-3		
	Randomized controlled study to compare ropivacaine-Poloxamer 407 hydrogel compared with subcostal transversus abdominis plane block for postoperative pain management following minimally invasive gastrectomy	AO-4
